This test is a close approximation to the actual form F SPEAK test.
Now the interviewer will ask you three questions. These questions are for practice and will not be scored, but it is important that you answer them.

What is your examinee identification number? (10 seconds)
What is the weather like today? (10 seconds)
What are your plans for the rest of the day? (10 seconds)

Now the test will begin. Be sure to speak clearly and say as much as you can in responding to each question.
A friend will be visiting your town for a few days?? Below is a map of your hometown. Please study the map for 30 seconds.

**the actual names of M. Blvd. and D. Ave. are not known**
1. You have asked your friend to meet you in the coffee shop after he has finished his tour of the museum. Please give him directions from the exit of the museum to the coffee shop. (30 seconds)

2. Your friend will be staying in your town all weekend. Please give him some recommendations for how he should pass his time, e.g. hiking, swimming or boating. (45 seconds)

3. The town plans to extend Elm Avenue through the park to M. Boulevard. Do you agree that this is a good idea? Give your reasons. (60 seconds)

4. Your friend is planning to leave next Monday. Try to persuade him to stay because there will be a play(?) in the theater next Monday evening. (60 seconds)
Now please look at the six pictures below. I'd like you to tell me the story that the pictures show, starting with picture number 1 and going through picture number 6. Please take one minute to look at the pictures and think about the story. Do not begin the story until I tell you to do so.

1. 2 men and 2 women are looking at a newspaper.
2. They are happy.
3. The car breaks, presumably a flat tire.
4. The women watch, the men fix.
5. On their way to the concert, happy again.
6. Presumably they are told that the concert is sold out.
5. Now tell me the story that the pictures show. (60 seconds)

6. What else could the four people do if they were not able to fix the car in time to go to the concert? (30 seconds) (not sure that this question is correct)

7. Your car has a mechanical problem and it will cost $1000 to fix it. You think that the repair is too expensive. Try to persuade the mechanic to reduce the cost of the repair (give you a discount?). (60 seconds)
Now I'd like to hear your ideas about several topics. Be sure to say as much as you can in responding to each question. After I ask each question, you may take a few seconds to prepare your answer, and then begin speaking when you're ready.

8. I am a colleague from a different field, and I am interested in learning more about what you study. What is of current interest in your field? (60 seconds)

9. In some secondary schools, students are allowed to choose what classes they will take on their own, and in others, the students are restricted in the kinds of classes they can take. What are the advantages and disadvantages of the students being able to choose their own classes? (60 seconds)

10. Although I can see the graph below, please tell me about the information in it. (60 seconds)

11. Between classical, jazz and rock music, which do you like best, and why? (60 seconds)
Now imagine that you are the president of the ASU Hiking club and you are reviewing an upcoming trip schedule. At the last meeting you gave out information about the trip, but there have been some changes. You must remind the members about the details of the trip and tell them about the changes indicated in the updated schedule. Present the new schedule as if you were talking to the club members. You will have one minute to plan your presentation. Do not start speaking until I tell you. (90 seconds) (this question is not 100% accurate)

ASU Hiking Club
Trip to Green Mountain

Date: Saturday August 18th 25th
Departure: 8:00 AM, Hiking Club House *
