Integrating Free Web Tools to Promote Oral Communication and Interaction

Facilitators: LêPhạm Thuý-Kim – Arizona State University
Nguyễn Thuý Anh – University of Michigan

Description: In this 4-hour hand-on workshop, participants will learn how to integrate several easy-to-use and download-free Web 2.0 tools to promote oral communication and interaction in their classrooms.

Participants will have the chance to create accounts and practice with Fotobabble, Eyejot, Voxopop, Chirbit, Voicethread, and You Tube. Detailed instructions and access to these technologies will be posted on an GUAVA 2011 Workshop Wiki set up by the facilitators for use during and after the workshop. Participants will be able to contribute to this Wiki throughout the workshop and after the workshop, including their thoughts and examples from their own.
