

Laura Schaefer
CURRICULUM VITAE

Arizona State University lschaefer@asu.edu
School of Earth & Space Exploration office: 480.727.3563
PO Box 876004 cell: 618.521.7945
Tempe, AZ 85287-6004 <http://public.asu.edu/~lkschae/>

PROFESSIONAL POSITIONS

Postdoctoral Research Associate School of Earth and Space Exploration Arizona State University	2016 – present
Graduate Student Dept. of Astronomy Harvard University	2011 – 2016
Research Assistant Dept. of Earth & Planetary Sciences Washington University, St. Louis	2002 – 2011

EDUCATION

Harvard University, Department of Astronomy Doctorate of Philosophy (PhD) <i>Dissertation:</i> The Atmosphere-Interior Connection: Rocky Planets as Linked Chemical Systems <i>Advisor:</i> Dimitar Sasselov	Oct. 2016
Washington University, Department of Earth & Planetary Sciences Bachelor of Arts (BA)	May 2002

AWARDS & SCHOLARSHIPS

Smith Family Graduate Science and Engineering Fellowship Harvard University	2011 – 2012
Bok Center Certificate of Distinction in Teaching Harvard University	Spring 2013 & Spring 2015
Courtney Werner Memorial Prize (for academic excellence) Washington University	May 2002

SEMINARS AND COLLOQUIA

- Differentiation Sets the Stage: core formation and mantle redox state* February 2018
Cornell University, Planetary Sciences Seminar
- Ghosts of Atmospheres Past: modeling atmosphere formation and evolution on rocky planets* February 2018
Cornell University, Astronomy Colloquium
- Atmosphere-Mantle feedbacks: importance of mantle oxidation state* January 2018
Stanford University – Geology Colloquium
- Atmosphere-Mantle feedbacks: importance of mantle oxidation state* January 2018
McGill University – Physics Colloquium
- Feeling Hot, Hot, Hot! Magma Ocean Evolution on Rocky Exoplanets* May 2017
University of Arizona – Origins NExSS Seminar
- Ghosts of Atmospheres Past: modeling atmosphere formation and evolution on rocky planets* February 2017
University of Boulder, APS Colloquium
- Coupled Atmosphere-Interior Evolution Models for Rocky (exo)Planets* April 2016
GeoSci Seminar, University of Chicago
- Finding oceans on Earth-like exoplanets* January 2016
Arizona State University
- Finding oceans on Earth-like exoplanets* April 2015
Planetary Science Seminar, JPL
- Formation of the Earth and its Earliest Atmospheres* December 2005
St. Louis Astronomical Society

CONFERENCE ABSTRACTS

*contributed talk, **invited talk

1. ****L. Schaefer**. 2018. Atmosphere-mantle volatile exchange throughout planetary evolution. Comparative Climatology of Terrestrial Planets 3. Houston, TX.
2. ****L. Schaefer**. 2018. Secondary atmospheres: composition and evolution during magma ocean phase. Gordon Research Conference: Deep Carbon Science in the Context of Geologic Time. Bryant College, RI.
3. **L. Schaefer**, L.T. Elkins-Tanton 2018. Ferric iron production in magma oceans and evolution of mantle oxidation state. Differentiation workshop, Pasadena, CA.

4. ***L. Schaefer**, L.T. Elkins-Tanton. 2018. The formation of terrestrial planets. Royal Society workshop: Earth dynamics and the development of plate tectonics. London, England.
5. ****L. Schaefer**. 2018. Redox state of early rocky planet atmospheres and interaction with magma oceans. DTA Symposium VIII: Challenge to Super-Earths and their Atmospheres --- Where do they come from? National Astronomical Observatory of Japan.
6. ****L. Schaefer**. 2018. Effect of water outgassing on magma ocean redox state. Water during Planet Formation and Evolution Workshop. University of Zurich.
7. ***L. Schaefer**, L.T. Elkins-Tanton, K. Pahlevan. 2017. Redox evolution in magma oceans due to ferric/ferrous iron partitioning. American Geophysical Union Fall Meeting, New Orleans, LA.
8. K. Pahlevan, **L. Schaefer**, S.J. Desch, L.T. Elkins-Tanton. 2017. A massive hydrogen-rich Martian greenhouse recorded in D/H. American Geophysical Union Fall Meeting, New Orleans, LA.
9. ***L. Schaefer**, L.T. Elkins-Tanton. 2017. The effects of accretionary impacts on the compositions of rocky planets. Accrete workshop, Nice, Fr.
10. N. S. Jacobson, M. J. Kulis, B. Radoman-Shaw, R. Harvey, D. Myers, **L. Schaefer**, B. Fegley, Jr. 2017. Thermodynamic modeling of the lower Venusian atmosphere. Venus Modeling Workshop, Cleveland, OH.
11. ***L. Schaefer** 2017. Atmospheric loss of rocky elements from M dwarf habitable zone planets. Astrobiology Science Conference, Mesa, AZ.
12. ***L. Schaefer** 2017. Oxygen fugacity evolution of magma oceans on planetesimals and protoplanets. 48th Lunar & Planetary Science Conference, Houston, TX.
13. K. Pahlevan, **L. Schaefer**, L. Elkins-Tanton, S. Desch, S. Karato. 2017. Hydrogen isotopic fractionation in the terrestrial magma ocean. 48th Lunar & Planetary Science Conference, Houston, TX.
14. ***L. Schaefer**, R. Wordsworth, Z. Berta, D. Sasselov 2017. Atmosphere-magma ocean modeling of GJ 1132 b. 229th American Astronomical Society Meeting, Grapevine, TX.
15. E. S. Kite, B. Fegley, Jr., **L. Schaefer**, E. Gaidos 2016. Volcanism on Magma Planets: Extreme Volcanism is Regulated by Planet Mass, Temperature, and Initial Composition. 47th Lunar and Planetary Science Conference, Houston, TX.
16. **L. Schaefer**, D. Sasselov 2015. Atmospheres of partially differentiated super-Earth exoplanets. 47th Division of Planetary Sciences Meeting, National Harbor, MD.
17. ***L. Schaefer**, D. Sasselov. 2015 Persistence of oceans on Earth-like planets. 225th American Astronomical Society Meeting, Seattle, WA.
18. ****L. Schaefer**, B. Fegley, Jr. 2014. Chemical Equilibrium Models of the Redox State of Earth's Earliest Atmosphere. 24th Goldschmidt Conference, Sacramento, CA.
19. Y. Miguel, L. Kaltenecker, B. Fegley, Jr., **L. Schaefer** 2012. Composition of Rocky Hot Super-Earth Atmospheres. EGU Vienna, Austria.
20. B. Fegley, Jr., L. Schaefer, K. Lodders. 2012. Chemistry of the Moon-Forming Impact. 219th American Astronomical Society Meeting, Austin, TX.
21. M. S. Marley, K. Cahoy, B. Fegley, Jr., **L. Schaefer**, K. J. Zahnle, K. Lodders, 2011. Thermal Emission Spectra of Post-Giant-Impact Earths. American Geophysical Union Fall Meeting, San Francisco, CA.

22. ****L. Schaefer**, B. Fegley, Jr. K. Lodders. 2011. Atmospheric Formation of Rocky Terrestrial Planets, American Geophysical Union Fall Meeting, San Francisco, CA.
23. ****L. Schaefer**. 2011. Hadean Atmosphere of the Early Earth. Geological Society of America Annual Meeting, Pardee Symposium.
24. ***L. Schaefer**, K. Lodders, B. Fegley, Jr. 2011. Equilibrium Chemistry of the Atmospheres of Scorched Rocky Exoplanets. 217th American Astronomical Society Meeting, Seattle, WA.

47. **L. Schaefer** & B. Fegley, Jr. 2002. Vaporization of high temperature magmas on Io, 34th Division of Planetary Sciences Meeting, Birmingham, AL.

MISSION INVOLVEMENT

Psyche: Mission to a Metal World
Affiliate Team Member

May 2017 – present

TEACHING EXPERIENCE

Teaching Fellow

Spring 2015

Astronomy 189 – Exoplanet Systems

Harvard University, Professor Dave Charbonneau

Responsibilities: produce homework solutions, grade homework and exams, run homework help sessions involving code debugging, office hours.

Head Teaching Fellow

Spring 2014

Science of the Physical Universe 30 – Life as a Planetary Phenomenon

Harvard University, Professor Dimitar Sasselov

Responsibilities: lead teaching meetings for course staff, order and organize all course materials, write all biweekly homework sets, weekly lab section handouts and exams, lead weekly student section, assist other teaching fellows in their weekly sections, grade homeworks and exams, assign weekly reading assignments, and update course website

Teaching Fellow

Spring 2013

Science of the Physical Universe 30 – Life as a Planetary Phenomenon

Harvard University, Professor Dimitar Sasselov

Responsibilities: teach a weekly student review and laboratory section (15 students), grade homework and exams, hold office hours

STUDENT MENTORING

Kevin Hubbard

January 2017- present

1st yr graduate student, Arizona State University

Project: Formation of Ni-Cu-PGE ores on Mars through sulfide saturation

SERVICE

Conant Prize Judge The Conant Prize is awarded to students in General Education STEM courses for innovative projects or essays. Projects are submitted by course instructors for consideration for the prize and ranked by a panel of current or former GenEd teaching fellows.	Spring 2015 Fall 2014 Spring 2014 Fall 2013
Harvard Astronomy Department Peer Mentor	2015 - 2016
AAS Chambliss Judge for undergraduate posters	January 2015
Exoplanet Pizza Lunch Co-organizer, biweekly lunch talk series on exoplanets	2015 - 2016
Planetary Journal Club Co-organizer, biweekly joint Astronomy – Earth & Planetary Sciences journal club	2015 - 2016

REVIEWER

Journals: Nature, Nature Astronomy, Astrophysical Journal, Astrophysical Journal Letters, Physics of Earth and Planetary Interiors, Icarus, Earth and Planetary Science Letters, Life

Funding Agencies: NASA (various programs)

PUBLIC ENGAGEMENT

Dean of Science Public Lecture Reaching Proxima b, our closest exoplanet	December 2016
Science in the News Fall Seminar Earth Formation – the Making of Planet Earth.	October 2013
Science in the News Spring Seminar Sailing the Seas of Alien Worlds: The fate of oceans on rocky planets.	April 2015
