Romania and Central Europe

What's this program about?

The twelfth annual summer program in Romania and Central Europe is a four-week session at Babes-Bolyai University in Cluj-Napoca, designed to give participants a comprehensive view of the rich and unique cultural history of Pre/Post Communist Central Europe. It combines features of a traditional study abroad program and excursions, with emphasis on language, history, politics, cultural and religious studies, and cultural geography, among other academic disciplines. The classroom work is completed by an intensive program of guided visits to museums, historical sites, monasteries, visits to Bucharest, the Black Sea, Dracula's Castle, the medieval town of Sighisoara (Dracula's birth place), and other outstanding centers of European cultural heritage. The program also includes a one-week cultural trip to the capitals and important cities of the former Austro-Hungarian Empire: Budapest, Vienna, Prague and Bratislava.
