

## **International Journal of Critical Computer-Based Systems (IJCCBS)**

<http://www.inderscience.com/ijccbs>

### **Special Issue on Assurance in Distributed Systems and Networks**

This special issue is specifically organized for ADSN 2009. The best papers accepted to ADSN 2009, based on the reviewers' reports, will be recommended to the special issue. The authors of the recommended papers will be asked to extend their papers by at least 30% in length and in contents, and submit them to the special issue. Then, the guest editors work with the journal's editor in chief, Dr. Francesco Flammini, to review and select the resubmitted papers.

The timeline for the special issue is planned as follows:

- Feb 15, 2009 ADSN 2009 workshop papers review completion
- Feb 28, 2009 Invite selected authors to submit to the extended papers to the special issue
- May 31, 2009 Submission due date for the special issue (detail will be further announced)
- July 31, 2009, Review completion and notification
- After July 31, 2009, the authors will directly work with the journal editor in the production phase.
