### **SPECIAL ISSUE: MACHINE LEARNING AND DEVELOPMENT OF COMPLEX SYSTEMS**

**Guest Editor: Dr. Yinong Chen**

- 521 **Preface**  
*Yinong Chen*
- 523 **Morphology-based visible-infrared image fusion framework for smart city**  
*Guanqiu Qi, Zhiqin Zhu, Yinong Chen, Jinchuan Wang, Qiong Zhang and Fancheng Zeng*
- 537 **Three-dimensional pedestrian dead reckoning method based on gait recognition**  
*Min Huang, Hua-Zhao Li and Xia Wu*
- 548 **Travel pattern modelling and future travel behaviour prediction based on GMM and GPR**  
*Wen Shen, Zhihua Wei, Chao Yang and Renxian Zhang*
- 557 <sup>DEVS</sup>**Server: ambient intelligence and DEVS modelling-based simulation server for epidemic modelling**  
*Mostefa Mokaddem, Baghdad Atmani, Abdelmalek Boularas and Chihab Eddine Mokaddem*
- 582 **Finite-time synchronisation of memristive hyperchaotic circuit based on Lorenz system with transmission delay**  
*Hongjuan Wu, Xiang Hu and Yuming Feng*

### **Additional papers**

- 589 **An interactive, interoperable and ubiquitous mixed reality application for a smart learning experience**  
*Francesco Longo, Letizia Nicoletti and Antonio Padovano*
- 604 **Agent-based modelling and simulation of task execution and coordination in distributed organisations: the psychosocial dynamic interaction perspective**  
*Haibin Liu, Yufang Cheng and Qinghe Bo*
- 622 **Contents Index**
- 626 **Keywords Index**
- 632 **Author Index**
-
