Ziming Zhao

Assistant Research Professor

School of Computing, Informatics, and Decision Systems Engineering
Arizona State University
Tempe, AZ, 85281
Email: ziming.zhao@{asu.edu, gmail.com}

EDUCATION

Ph.D. in Computer Science	Arizona State University, Tempe	2014
M.S. in Cryptography	Beijing University of Posts and Telecommunications, Beijing	2009
B.E. in Automation	Beijing University of Posts and Telecommunications, Beijing	2006

EXPERIENCE

- Assistant Research Professor, Arizona State University, Sep 2015 - Present
- Postdoctoral Scholar, Arizona State University, Sep 2014 - Sep 2015
- Research Assistant, Arizona State University, Aug 2009 - Sep 2014
- Teaching Assistant, Arizona State University, Aug 2009 - May 2010
- Student Intern, Microsoft Research Asia, 2008 - 2009
- Research Assistant, Beijing University of Posts and Telecommunications, 2006 - 2008

HONORS and AWARDS

- Best Paper Award, ITU Kaleidoscope 2016: ICTs for a Sustainable World, 2016
- Top 10 Finalist of Best Applied Security Paper Award, New York University Cyber Security Awareness Week (CSAW), 2015
- 3rd Place, Extreme Networks SDN Innovation Challenge, 2015
- Best Paper Award, the 4th ACM Conference on Data and Application Security and Privacy (CODASPY), 2014
- University Graduate Fellowship, Arizona State University, 2009
- Star of Future, Microsoft Research Asia, 2009

RESEARCH SPECIALTIES

I am interested in security and privacy related problems in computer and communications systems. In particular, my research foci include **system and software security**, e.g., utilizing hardware primitives to design and implement secure systems for attack mitigations; **network and web security**, e.g., designing novel firewall and intrusion response systems for the emerging software-defined network and mobile ad-hoc network; **cybercrime and threat intelligence analysis**, e.g., understanding the structure of underground communities and the economy and ecosystem of cybercrime; **usable and user-centric security**, e.g., finding vulnerabilities in authentication and payment systems; designing novel access control models and techniques.

- System and Software Security: Hardware-based Security (ARM TrustZone, etc.), Operating System Security (Linux, Android, etc.), Program Analysis and Software Engineering for Security (Vulnerability Discovery and Analysis, Risk Analysis and Mitigation, etc.)
- Network and Web Security: Software-defined Networking (Statefull and Stateless Firewall, etc.), Mobile Ad-hoc Networks (Intrusion Detection and Prevention Systems, etc.), Web Security (Moving Target Defense for Web Applications, etc.)

- Analysis of Cybercrime, Economy and Ecosystem: Underground Social Dynamics (Hacker Community, etc.), Underground Economy (Underground Marketplaces, Ransomware Money Flow, etc.), Spam and Scam (Telephone Spam, etc.)
- Usable and User-centric Security: Authentication (Text, Graphical, and Picture Password Systems, Caller ID Authentication, etc.), Access Control (Models and Techniques in Online Social Networks, Attribute-based Access Control, etc.), Payment (Mobile Payment, etc.)

RESEARCH PROJECTS

I have been actively pursuing external funding opportunities since I became a research professor at Arizona State University. I have received the following funding as a PI/Co-PI:

- PI: Gail-Joon Ahn, Co-PI: Stephen Yau, Dijiang Huang, Adam Doupé, and Ziming Zhao. NSF-SFS: Arizona Cyber Defense Scholarship. Award Number: 1663651. $4,998,009. NSF, 2017 - 2022
- PI: Ziming Zhao. On the Security and Privacy of New Generation User Authentication Methods. Award Number: 61628202. CNY 180,000 ($27,000). National Natural Science Foundation of China, Joint Research Fund for Overseas Chinese Scholars and Scholars in Hong Kong and Macao, 2017 - 2018. (Only 135 awards in all disciplines)

The list of my submitted and pending proposals and whitepapers:

- PI: Ziming Zhao and Gail-Joon Ahn. SaTC: CORE: Small: Covert Channel Analysis on Mobile and IoT TEE, National Science Foundation.

I have been leading the following funded projects by playing a vital role in helping proposal writing and project supervision:

- PI: Gail-Joon Ahn. SNGuard: Securing Dynamic Online Social Networks, NSF-CNS-0831360, $540,249.00, National Science Foundation, 2008 - 2013
- PI: Gail-Joon Ahn. Dissecting Social Dynamics and Malware Attributions for Mitigating Network-centric Attacks, ARO-030040-001, $300,000, Army Research Office, 2016 - 2019
- PI: Anna Scaglione and Gail-Joon Ahn. Cyber Resilient Energy Delivery Consortium (CREDC), $1,200,000, Department of Energy, 2015 - 2020.
- PI: Gail-Joon Ahn, Malware Behavior Analysis, $50,000, GoDaddy.com, 2011 - 2012
- PI: Gail-Joon Ahn, Treat Intelligence Analytics, AllState, 2016 - 2018

PUBLICATIONS

My research has led to 40+ publications in the most prestigious computer and communication security conferences and journals, including IEEE Symposium on Security and Privacy (**Oakland**), USENIX Security Symposium (**SECURITY**), Network and Distributed System Security Symposium (**NDSS**), European Symposium on Research in Computer Security (**ESORICS**), Annual Computer Security Applications Conference (**ACSAC**), ACM Symposium on Access Control Models and Technologies (**SACMAT**), ACM Conference on Data and Applications Security and Privacy (**CODASPY**), IEEE Conference on Communications and Network Security (**CNS**), ACM Transactions on Information and System Security (**TISSEC**), IEEE Transactions on Dependable and Secure Computing (**TDSC**), etc.

In addition, my research has received 30+ media coverage and have been used in graduate courses and reading groups at Princeton University, Naval Postgraduate School, Arizona State University, University of Ontario Institute of Technology, Delaware State University, Clemson University, University of San Francisco, University of Toronto, National Chengchi University, Hanyang University, etc.

TEACHING EXPERIENCES

I have taught two classes at Arizona State University

- CSE 469 Computer and Network Forensics, Arizona State University, Spring 2017
  This is an undergraduate/graduate computer science class with more than 60 students. This class focuses on hands-on practices.
  Part 1: Student Evaluation of the Course **4.42/5**
  Part 2: Student Evaluation of Instructor **4.49/5**
  Overall: **4.33/5**
- CSE 468 Computer Network Security, Arizona State University, Fall 2016
  This is an undergraduate/graduate computer science class with 105 students. I developed the syllabus based on the previous CSE 468 class by adding many new materials about attack and defense on network and transport layer protocols. I also introduced 4 more lab assignments to help students get hands-on experience.
  Part 1: Student Evaluation of the Course **4.47/5**

Part 2: Student Evaluation of Instructor **4.49/5**
Overall: **4.24/5**

I haven given many guest lectures at Arizona State University

- CSE 465 Information Assurance (Instructor: Prof. Gail-Joon Ahn). Trust in Mobile Computing, 2015
- CSE 494/598 Forensic Computing: Computer and Network Forensics (Instructor: Prof. Gail-Joon Ahn). Malware Forensics, 2013 - 2016
- CSE 465 Introduction to Information Assurance (Instructor: Prof. Gail-Joon Ahn). Cracking Picture Password for Fun and Profit, 2013
- CSE 430 Operating Systems (Instructor: Prof. Violet Syrotiuk). Automatic Extraction of Secrets from Malware, 2011

I was a teaching assistant for two classes at Arizona State University

- CSE 494/598 Computer and Network Forensics (Instructor: Prof. Gail-Joon Ahn), Arizona State University, Spring 2010
- CSE 340 Principles of Programming Languages (Instructor: Prof. Rida Bazzi), Arizona State University, Fall 2009

STUDENT ADVISING and MENTORING

  - ACM Conference on Computer and Communications Security (CCS), 2013, 2017
  - ACM Symposium on Access Control Models and Technologies (SACMAT), 2014 - 2015
  - ACM Conference on Data and Application Security and Privacy (CODASPY), 2012 - 2015
  - ACM Symposium on Information, Computer and Communications Security (ASIACCS), 2014
  - IEEE Global Communications Conference (GLOBECOM), 2014
  - International Conference on Computing, Networking and Communications (ICNC), 2014
  - International Conference on Computer Communications and Networks (ICCCN), 2014
  - International Conference on Information Security Practice and Experience (ISPEC), 2014
  - Asia-Pacific Conference on Communications (APCC), 2013

TALKS and PRESENTATIONS

I have presented my research outcomes and been invited to give talks in security conferences.

- Toward Building Trusted Execution Environment on Commodity Smartphones, invited talk at *International Symposium on Mobile Security*, December 2015, Seoul, South Korea.
- Using Instruction Sequence Abstraction for Shellcode Detection and Attribution, presented at *IEEE Conference on Communications and Network Security*, Oct 2013, Washington DC, USA.
- On the Security of Picture Gesture Authentication, presented at *USENIX Security Symposium*, Aug 2013, Washington DC, USA.
- Examining Social Dynamics for Countering Botnet Attacks, presented at *IEEE Global Communications Conference*, Dec 2011, Houston, USA.
- Risk-Aware Response for Mitigating MANET Routing Attacks, presented at *IEEE Global Communications Conference*, Dec 2010, Miami, USA.

PATENTS

P1 Huahong Tu, Adam Doupé, Gail-Joon Ahn and Ziming Zhao. Systems and methods for authenticating caller Identity and call request header information for outbound telephony communications. US Provisional Patent 62/308105, 2016.

P2 Gail-Joon Ahn and Ziming Zhao. Granted Patent. Method, systems, and media for measuring quality of gesture-based passwords. US 9069948 B2, June 30, 2015.

ENTREPRENEURIAL and CONSULTING CAREER

- iSign International, Inc., 2017 - , member of Advisory Committee
- GFS Technology, Inc., 2012 - 2016, Technical Advisor (Acquired by iSign International Inc. in 2017)

SKILLS

- Systems: Linux kernel, OP-TEE, ARM Trusted Firmware, Android
- Programmings: C, C++, x86 Assembly, ARM Assembly, and others

SELECTED MEDIA COVERAGE

- Team Flowguard Wins Third Place In National Innovation Challenge. *ASU Full Circle*, Aug 19, 2015. (Link)
- Windows 8 Picture Passwords Easily Cracked. *InformationWeek Dark Reading*, August 29, 2013. (Link)
- Windows 8's Picture Passwords Weaker Than Users Might Hope. *Slashdot*, September 5, 2013. (Link)
- Windows Picture Passwords - are they really as 'easily crackable' as everyone's saying? *NakedSecurity*, September 9, 2013. (Link)
- Windows 8 Picture Passwords Easily Cracked. *Communications of ACM*, September 4, 2013. (Link)
